

Application for Affiliates & Members

Background on CSAF

The Council on Smallholder Agricultural Finance (CSAF) is the leading global network promoting a responsible finance market for producer organizations and small- and medium-enterprises (SMEs) in the agriculture sector. Our 13 members are pioneering financial institutions that come together to share learning and promote the growth of a thriving market that generates long-term economic, social, and environmental impact by meeting the financing needs of inclusive agricultural SMEs globally. CSAF members collectively lend \$700M per year to SMEs aggregating 2M+ smallholder farmers across 65 countries in Africa, Asia, and Latin America. CSAF has three workstreams focused on:

- **Market Growth** to meet a greater share of the vast financing need for inclusive agricultural SMEs globally
- **Responsible Lending Practices** to ensure that market growth contributes to positive impact on agricultural businesses, the smallholder farmers they aggregate and workers they employ, and the long-term sustainability of the sector
- **Social & Environmental Impact** for farm households, their communities, and their surrounding ecosystems

Members include Alterfin, Global Partnerships, Incofin Investment Management, Oikocredit, Rabo Rural Fund, responsAbility Investments AG, Root Capital, Shared Interest Society, and Triodos Investment Management; SME Impact Fund is a Regional Member in East Africa. CSAF has also created an Affiliate status to engage institutions that share the values of a sustainable and inclusive financial market for agricultural businesses, are committed to responsible lending and transparent reporting, and seek to participate in a community of practice. AgDevCo, Impact Finance, and MCE Social Capital are affiliates.

Member and Affiliate Criteria & Selection Process

CSAF seeks to expand the market of agricultural lending institutions committed to responsible lending practices and social and environmental impact. Consistent with that objective, we aim to engage with a growing number and range of financial institutions and ecosystem actors in active dialogue on these topics. There are three categories of formal engagement with CSAF:

- 1) **Members** – institutions that sign and adhere to CSAF’s responsible lending principles and environmental, social and governance (ESG) principles; report designated lending and impact metrics on an annual basis; and commit to the criteria outlined below are eligible. Members are listed on the CSAF website and may represent their status publicly. Institutions with a loan portfolio in two or more regions globally are eligible to be global members; institutions with a loan portfolio in one region are eligible to be regional members.
- 2) **Affiliates** – institutions that sign and adhere to the responsible lending principles and ESG principles and that report lending and impact metrics on an annual basis are eligible to be CSAF Affiliates. Affiliates are listed on the CSAF website and may represent their status publicly. Institutions with a portfolio in two or more regions are eligible to be global affiliates; institutions with a portfolio in one region are eligible to become regional affiliates.
- 3) **Field Building Partners** – institutions that share CSAF’s commitment to growing the finance market for agricultural SMEs and engaging in research and knowledge sharing as ecosystem

actors or in investment operations in an adjacent market (i.e., serving agricultural SMEs indirectly by providing capital to financial intermediaries or equity investors focused on the \$2M+ market segment) . Partners are listed on the CSAF website and may represent their status publicly. Please reach out to your CSAF contact if you believe you qualify better for this type of relationship.

CSAF’s policy is that prospective new members begin as affiliates and, after one year, are eligible to apply for full membership. The selection criteria and process for both member and affiliate status are outlined below. Applications are considered on a rolling basis, vetted by a sub-committee of CSAF members, and then put to a vote by all CSAF members; selection requires votes from at least 2/3 of the global members.
